CHAPTER II: REGULATIONS

SECTION I: SHOWING UNDER JUDGES AND STEWARDS

The following regulations govern showing under judges and stewards.

(a) An exhibitor or rider may not serve as a judge at any competition at which they also exhibit.

(b) No member of a judge's family, nor cohabitant, companion, partner, house mate or trainer may compete as an exhibitor in front of the judge, unless the relationship is terminated 30 days prior to the competition.

(c) The judge may not be an owner of any interest in a horse/pony being shown at any competition at which they are officiating, including those classes which are not rated.

(d) No horses trained or sold by the judge, member of the judge's family, or employee of the judge, may compete in front of the judge within a period of 90 days prior to the competition.

(e) No one shall approach a judge with regard to a decision, unless they first obtain permission from a show steward. No person has the right to inspect the judge's cards without the judge's permission.

SECTION II: AMATEUR CLASSIFICATION

An amateur is a person that is no longer eligible to compete as a junior exhibitor and has not engaged in any of the following activities, within the last year, which would make them a professional:

- (a) Accepting remuneration for instruction, riding, showing in hand, training, schooling, and conducting clinics or seminars. Excludes summer camp counselors not hired in the exclusive capacity of riding instructors, as well as persons giving instruction and training to the handicapped.
- (b) Accepting remuneration for selling horses/ponies, acting as a paid agent in the sale of horses/ponies, or taking horses/ponies on consignment for the purpose of sale or training other than those owned wholly or in part by him/her or a member of his/her family.
- (c) The following activities do not affect the amateur status of a person who is otherwise qualified: accepting remuneration of acting as a show official; accepting remuneration as a groom, farrier or veterinarian; accepting remuneration for boarding services; accepting reimbursement for expenses without profit; accepting a token of appreciation of less than \$300.00 in value, other than money, for riding.

RULE III: RULES

SECTION I: THREE INCH RULE

In order to comply with other show sanctioning organizations, fence heights may be raised or lowered by 3" from the stated fence height in a given division. The Three Inch Rule does not apply to Beginner Rider, Short Stirrup Equitation or Short Stirrup Hunter.

SECTION II: TWO HORSE SHOW RULE

A rider may enter up to two times in a division or class which is held at a level or fence height above that from which they are currently competing and still be eligible to return to the previous lower level or fence height for the remainder of the show year. After the third show of entering into a higher level or fence height, the rider is then deemed ineligible to return to compete at the previous lower level or fence height. For purposes of this rule, any Pony Equitation, Pony Hunter or Pony Medal classes/divisions will be considered as being held at a fence height of 2'6" regardless of the fence height at which the rider is competing. If a rider skips a division level or fence height (i.e. from Short Stirrup to Pre-Children's), they are automatically ineligible to return to the initial division level or fence height, but may drop back one division level or fence height if they have not entered at more than two horse shows. The exceptions to the Two Horse Show Rule are the Children's Hunter and Junior Hunter divisions. Cross-entry is not supported by the Two Horse Show Rule. Entering a class/division is considered to be any class or division where an entry fee has been paid in order to ride in a class or over fences regardless of whether an entry number is displayed (un-judged).

SECTION III: THREE ENTRIES TO FILL

All classes must have three exhibitors enter and attempt the class in order for the class to be considered to have filled and for points for that class to be awarded unless otherwise noted. Champion and Reserve points will be awarded when all classes in the division have filled. Champion and Reserve Champion points are not awarded for the Walk/Trot Division, Walk/Trot/Canter Division, and all Equitation Divisions.

SECTION IV: SPLITTING CLASSES

Classes may not be split until at least 12 riders are entered into each class. Classes must be split if there are 16 riders in a class. Splits should be done fairly without consideration to any trainer or rider preferences. Show Management or the Steward will be responsible for splitting all classes.

SECTION V: HORSE/PONY WELL-BEING

Horses/Ponies can enter a maximum of SIX jumping classes per show day, and may enter a maximum of TEN classes total per show day. Members are responsible for showing their horse/pony with their best interest and well-being as priority. Judges and/or Stewards have the right to disqualify any competing horse/pony when the well-being of that particular animal is compromised.

RULE IV: OFFICIALS AND SHOW MANAGEMENT

SECTION I: SHOW MANAGEMENT

Show management should be especially cognizant of the following duties:

Failure to file a prize list will result in assessment of a \$25.00 fee to the show manager. If the fine is not paid, future competition dates will not be awarded until the fine is paid in full. Shows are not required to print all class specifications in the prize list, but must include a statement that reads: "All classes to be run in accordance with PHJA Rules and Regulations". If officials (judges or stewards) change prior to the competition, the Show Sanctioning Director must be notified immediately.
- (h) Forward to the PHJA Points Director, within ten days of completion of the show, PHJA Points Transmittal Sheets or a computer printout indicating the winners, number of entries in each class, champions and reserves, and the names of all horses/ponies and their registered owners. Judge's cards from each show held must be retained until November 30 of the current show year. Failure to file the results in a timely manner will incur a fine of \$25.00. If the fine is not paid, future competition dates will not be honored until the fine is paid in full.
- (i) Any PHJA recognized horse show must offer the PHJA Horse Medal class and the PHJA Pony Medal class.
- (j) The prize list must contain a PHJA Application for Membership.

SECTION II: JUDGES

The duties and responsibilities of a judge shall be the same as those found in the current USEF Rule Book. Judges for PHJA member shows must either possess a valid judge's card from the USEF, be approved by an affiliated horse show organization or by the PHJA Board of Directors. RULE VI: EQUITATION

Any rider violating this rule at any time must immediately be prohibited from further riding until such headgear is properly in place.

CHAPTER II: CLASS ROUTINE

SECTION I: GENERAL

Classes are judged on the rider's equitation. Unsoundness of mount does not penalize a competitor unless it is considered to impair the required performance. Horses/ponies may only be ridden by one rider per class. In cases of broken equipment or loss of shoe, the rider must continue or will be eliminated. Any rider not having his/her mount under sufficient control will be

dismissed from the ring and disqualified from the class. Champion and Reserve Champion points are not awarded for any equitation division, with the exception of Beginner Rider.

SECTION II: OVER FENCES

The performance begins when the rider enters the ring. Except for refusals, jumping faults of the horse are not to be considered unless it is the result of rider error. In this case, the penalty is up to the judge's discretion. Each competitor may circle once upon entering and leaving the ring. If a refusal occurs in a double or triple combination, competitors must re-jump all obstacles in the combination.

Elimination will occur due to a fall of horse and/or rider, three cumulative refusals or being off course.

SECTION I: OVER FENCES

All classes must be judged on performance, soundness and when indicated, on suitability, way of going and manners.

- When a horse makes two faults at one obstacle, only the major fault will count. (Exception: refusals count in addition).
- When an obstacle is composed of several elements in the same vertical plane, a fault at the top element is the only one penalized.
- At a combination, the faults committed at each obstacle are considered separately. In case of a refusal or run-out at one obstacle in a combination, the competitor must re-jump the entire combination.
- The judge may penalize unsafe jumping and bad form over fences.

- (e) The performance begins as the competitor enters the ring. Circling once upon entering and once upon leaving the ring is permissible.
- (f) Horses that are eliminated must exit the ring immediately.

SECTION II: FAULTS

The following faults are scored according to the judge's opinion and may be considered minor or major faults depending on severity.

- (a) Causes of Elimination include: Three refusals, being off course, jumping a fence before it is reset, bolting from the ring and/or fall of a horse and/or rider.
- (b) Major Faults include: Knocking down any part of any obstacle, refusals, trotting while on course, bucking, bolting, stopping for broken equipment/loss of shoe, circling while on course and/or eliminating a stride from a line.

Champion and reserve champion are awarded to the top horses that acquire the most points through all phases of a division. Walk/Trot and Walk/Trot/Canter divisions are not eligible for champion and reserve champion points. A championship may not be offered in a section unless there is a minimum of two over fences and one under saddle class. Refer to the "Three Entries to Fill" rule. In the case of a tie, the horse that accumulated the most points over fences will be awarded the champion title. If the horses still have an equal number of points, the horse with more blue ribbons will be awarded champion, and if still tied, the tied horses may hack off at the walk, trot and canter. A hack off is to be judged as an independent class. Shows at which PHJA shares sanctioning, may tabulate championships in a manner which differs from that of the PHJA. Championship results will be honored by the PHJA as reported by co-sanctioned horse shows.

RULE XI: JUMPER CLASSES

CHAPTER I: GENERAL ELIGIBILITY

Jumpers may be any breed, type, sex or height. Stallions are acceptable any may be ridden by junior riders. Riders may show more than one horse in any division as the points apply to the horse, not the rider. If an unsoundness is great enough to be considered abusive, it is the judge's duty to disqualify the horse from competing. PHJA rules will apply regarding acceptable behavior towards any horse at a PHJA show. Poling and offsets are prohibited (offsets being an element in which the back rail is set lower than the front rail). All oxers must be square or ramped where the front rail is set lower than the back rail). Any action deemed excessive during schooling will be prohibited.

CHAPTER II: EQUIPMENT, TACK AND ATTIRE

SECTION I: EQUIPMENT AND TACK

- (a) Bell boots, polo wraps, and any type of leg guards are acceptable in the jumper divisions. All martingales are permitted. Draw reins are also accepted.
- (b) Stirrups may not be tied to the girth or secured in any similar manner.
- (c) Square saddle pads and any type of additional padding is acceptable.

SECTION II: ATTIRE

- (a) Riders must wear short or long sleeved riding shirts with chokers or ties and riding jackets. If a riding jacket is not worn, riders may show in a polo shirt with a collar, ticked into riding breeches. Rain gear is permitted in inclement weather. All riders must follow PHJA rules regarding approved helmets (see Rule VI, Chapter I, Section III: Headgear).

CHAPTER III: SCORING

SECTION I: PENALTIES

Scoring of jumpers is based on penalty faults while on course. Faults are applied to knockdowns, time penalties and disobedience. Each penalty has its own mathematical value.

- (a) When two or more faults occur at one obstacle, the major fault is the only one that counts. If the faults are of equal value, only one fault is counted. The exception to this is disobedience. Each display of disobedience should be counted.
- (b) When there are several elements in the same vertical plane of an obstacle. The top element can be the only one penalized. For example, if a vertical jump has three poles and the horse knocks down the middle or bottom rail, no fault should be given. Only the lowering of the top rail results in a fault.
- (c) When an obstacle is composed of more than one vertical plane, such as an oxer or a triple bar, faults at more than one element are penalized only once. For example, if both top rails of an oxer are lowered, only one fault is penalized. For fault values see
- (d) In a combination, the faults occurring at each obstacle are scored separately. If there is a refusal or a run-out at one element of the combination the entire combination must be re-jumped. The obstacles(s) must be reset if they have been changed by the attempt. The judge must give a signal when it has been reset before the exhibitor may retry the combination. Resetting the combinations should automatically stop the clock. The judge's signal to the exhibitor to continue starts the clock immediately. Six seconds will be added to the exhibitor's time each and every time the clock has to be stopped for an obstacle to be reset.
- (e) Once on course, there is no allowance for broken equipment, lost shoes, etc. It is the rider's decision to continue to avoid penalties or to voluntarily withdraw from the course.
- (f) An eliminated rider may make one attempt to jump a single obstacle before exiting the ring. The judge has the right to designate which single obstacle the competitor may attempt before exiting. This does not, however, apply to a horse that has taken a fall on course.

(g) Physical assistance from outside the ring while on course is cause for immediate elimination. Physical assistance includes, but is not limited to, things such as lunge whips, plastic bags and noisemakers. Verbal assistance is not physical assistance and is acceptable. Between the rounds of a Table II, 2(b) class a rider may have assistance from outside as long as the horse and rider do not leave the ring and the second round is begun within the time allowed between the audible signal and crossing the starting line.

SECTION II: DISOBEDIENCES

(a) A refusal is the stopping of the horse in front of any obstacle to be jumped. Should the horse stop without knocking down the jump and without backing, immediately jumping from a standstill, a refusal is not counted. However, if the halt continues or the horse backs or circles, a refusal is counted.

(b) A run-out is the evasion or passing of an obstacle to be jumped or the finish line. It is also the jumping of an obstacle outside its limiting markers. This is a disobedience. After a refusal or a run-out, the competitor must re-jump the obstacle before proceeding on course.

(c) Loss of Forward Movement is the halting or stepping backward of the horse after crossing the starting line. This is counted as a disobedience unless it is due to a refusal, run-out, or an order from the judge.

(d) Circling is a disobedience when it results in the horse crossing its original track between two consecutive obstacles. Circling is also penalized when the horse stops advancing toward or turns away from the next fence except when it is to retake an obstacle after a disobedience. Any discrepancy on this stall be decided by the judge. Zigzagging and coming sideways does not constitute a disobedience unless the horse passes or turns its back to the intended obstacle or the finish line.

SECTION III: KNOCKDOWNS

An obstacle is considered knocked down when in attempting to jump an obstacle, a horse or rider, by contact, lowers any part which establishes the height of the obstacle or the height of any element of a spread obstacle. It is counted even if the falling part is stopped in its fall by some other portion of the obstacle.

(a) Moving the pole, but not removing it from the cups or brackets that are holding it does not constitute a knockdown. If an obstacle falls after the competitor leaves the ring, it is not a knockdown.

(b) Narrowing the width of a spread without altering the height of any element does not constitute a knockdown.

SECTION IV: JUMPING FAULTS

(a) Knockdown of an obstacle, element of an obstacle, or standard when jumping = 4 faults

(b) Knockdown of automatic timing equipment or markers showing the start and finish line = 4 faults

(c) First disobedience on course = 4 faults

(d) Second disobedience on course = 8 faults cumulatively

(e) Third disobedience on course = elimination

(f) Fall of horse and/or rider = elimination

(g) Jumping an obstacle before it is reset, or without waiting for the audible to proceed = elimination

(h) Starting without the audible to proceed = elimination

(i) Failure to cross the starting line within 45 seconds of the audible = elimination

(j) Jumping an obstacle before crossing the start line or after crossing the finish line = elimination

(k) Off course = elimination

(l) Rider and/or horse leaving the arena before finishing the course = elimination

(m) Exceeding the Time Limit = elimination

(n) Actions deemed excessive against the horse such as excessive whip or spur at any time in the arena = elimination

RULE II: COURSES

SECTION I: COURSE DIAGRAM

The courses must be posted at least one half hour before the time of the class. The diagram must include time allowed, section of class, jump-off course, and must show the obstacles to be jumped with the order indicated by number.

SECTION II: START AND FINISH LINE

The start line must be no closer than 12' from the first obstacle and at least 24' from the last obstacle. The obstacles establishing the start and finish line must be at least 12' apart. The horse must cross the start and finish lines mounted and in the proper direction.

Crossing the start in the opposite direction before beginning the course is not penalized. Failure to cross the start line within 45 seconds after the audible sounds is cause of elimination.

SECTION III: AUDIBLE SIGNAL

(a) An audible signal can be a bell, whistle, horn or buzzer. Any other form of audible to be used shall be identified to every competitor before the start of the class.

(b) An audible signal shall be given to signal the start, stop for a competitor while on course designating a time-out, to end a time-out and continue the course, and to indicate that a competitor has been eliminated. The latter shall be given by a repeated and prolonged ringing or sounding.

SECTION IV: TIMING

Timing begins when the horse's chest crosses the start line and ends when the chest crosses the finish line.

(a) As stated earlier, a competitor will receive six seconds added to their time should a time-out have to be taken to reset an obstacle. Each time-out based on this will incur six seconds extra. If a time-out has to be taken that is not due to a competitor's mistake, the timeout will not result in a six second time penalty. An example of this would be stopping the competitor while on course to fix a jump that blows over or to remove a dog or debris from the course. This time-out is at the judge's discretion.

(b) For every second over the Time Allowed a competitor will receive 1 fault.

(c) The time allowed must be posted prior to the start of the class. The time may be adjusted after the first three horses complete the course if the time allowed proves to be too tight for all three. Given this, the first two to complete the course cleanly, even exceeding the time allowed should be allowed to continue on to the jump-off in case the time is adjusted. If it is not adjusted, then the first two shall

incur the time faults for their first round and the jump-off is voided.

CHAPTER II: TYPES OF COURSES

There must be at least one change in direction in every course including jump-off courses. Every course, except jump-off courses, must contain a minimum of eight obstacles. Each obstacle of a combination is counted separately. At least one combination must be included in every course, except jump-off courses.

SECTION I: SECTION II - TABLE II, sec 2(a) - TIME FIRST JUMP-OFF

The first round and first jump-off, if any, are decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed. In the event of equality of faults after the first round, there will be one jump-off for first place only in which time will decide in the event of equality of faults. At management's discretion, each exhibitor may have the option of taking part in the jump-off at the completion of their round as in Table II, sec 2(b) or after all exhibitors have completed their first round.

SECTION II: SECTION II – TABLE II, sec 2(b) – TIME FIRST JUMP-OFF

The first round and first jump off, if any, are decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed. If a competitor has gone clean in the first round, the competitor will, without leaving the ring, upon an audible signal, start the designated jump-off course. A competitor with a clear round may dismount, and with assistance if necessary,

adjust tack and/or equipment provided they remount and begin their jump-off within 45 seconds following the audible signal to being the jump-off. If there are no clean rounds and a tie exists for first place, there will be one jump-off in which time will decide in the event of equality of faults.

SECTION III: SECTION V – TABLE II, sec 2(c) – POWER AND SPEED

The first round and first jump-off, if any, are decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed if any. If a competitor goes clean in the first round, he will, without leaving the ring, upon crossing the finish line, start the designated jump-off course. Time starts as the horse crosses the finish line of the initial course. If there are no clean

rounds and a tie exists for first place, there will be one jump-off in which time will decide in the event of equality of faults. The use of a time allowed in the first round is optional.

SECTION IV: JUMP-OFFS

Jump-offs are held over obstacles from the original course which may include obstacles not included in the initial round. Courses may be shortened after the first round. The jump-off may not be shortened to less than six obstacles.
